This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software" or "commercial computer software documentation" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle, Java, and MySQL are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

New in this release	1-1
Fixed in this release	1-3

Preface

This preface contains the following sections:

- [Documentation accessibility](#)
- [Related Resources](#)
- [Diversity and Inclusion](#)

Documentation accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Related Resources

All documentation and other supporting materials are available on the [Oracle Help Center](#).

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

1

Global Pathogen Analysis Service

The 22.12 release of Global Pathogen Analysis Service (GPAS) provides new enhancements. It also resolves a range of issues. See the following sections for details.

- [New in this release](#)
- [Fixed in this release](#)

New in this release

Global Pathogen Analysis Service (GPAS) 22.12 contains the following enhancements.

Table 1-1 Enhancements

Number	Portal	Category	Description
HCGPAS-1701	Administrator Portal	Notifications	You can now send an email message to users from GPAS Administrator Portal through the Send Message icon in the top-right corner of the page. You just need to specify the organization and recipient.
HCGPAS-1699	User Portal	Notifications	On the Samples page and the Upload Client page, you can now close the new upload client message.

Table 1-1 (Cont.) Enhancements

Number	Portal	Category	Description
HCGPAS-1565	User Portal	Reporting	GPAS now supports GeoJSON maps for the following countries and territories: • Aland • American Samoa • Anguilla • Aruba • Bermuda • British Indian Ocean Territory • British Virgin Islands • Cayman Islands • Cook Islands • Curaçao • Falkland Islands • Faroe Islands • French Polynesia • French Southern and Antarctic Lands • Gibraltar • Guam • Guernsey • Heard Island and McDonald Islands • Hong Kong S.A.R. • Isle of Man • Jersey • Liechtenstein • Macao S.A.R. • Montserrat • New Caledonia • Niue • Norfolk Island • Northern Mariana Islands • Palestine • Pitcairn Islands • Puerto Rico • Republic of Congo • Saint Barthelemy • Saint Martin • Saint Pierre and Miquelon • Sint Maarten • South Georgia and South Sandwich Islands • Taiwan • Turks and Caicos Islands • United States Minor Outlying Islands • United States Virgin Islands • Vatican • Western Sahara

Table 1-1 (Cont.) Enhancements

Number	Portal	Category	Description
HCGPAS-1561	User Portal	Samples	You can now request to upload samples to a public repository from GPAS User Portal. On the Samples page, when viewing batches or samples, select the check box next to each batch or sample you want to request, select More Actions, and then select Public Repository Upload. You can view the number of samples you are requesting and the number of eligible samples that you can upload to a public repository, such as the European Nucleotide Archive (ENA). If a sample is not eligible for upload, you see the sample GUID and the reasons why you cannot upload the sample (for example, if your sample is a control sample or if your sample status is not Released).
HCGPAS-1595	User Portal	Samples	You can now request access to a sample that has a status of Released if you do not own the sample and cannot access it through tags. On the Sample view page, select Request Access and enter a reason for your request into the text field.
HCGPAS-1696	User Portal	Samples	When a sample you upload completes analysis and you apply a status of Released, if there are no related samples, you now see a message that indicates that there are no other samples in the GPAS Shared Data Pool that are within 3 Single Nucleotide Variants of your sample.
HCGPAS-1775	User Portal	Samples	On the Samples page, you can now search for samples using the following filters: • Tags - Includes • Tags - Exact Match • Uploaded Period
HCGPAS-1698	User Portal	Tags	When searching for a tag in the Access tab on the Samples page, you can now view the organization that owns the tag.

Fixed in this release

Global Pathogen Analysis Service (GPAS) 22.12 contains the following fixes.

Table 1-2 Fixes

Number	Portal	Category	Description
HCGPAS-1452	User Portal	Samples	When you transfer ownership of a sample that has a run number to another user, the page now updates to display the correct count of runs for samples that you own.
HCGPAS-1544	User Portal	Samples	You can now download large files and the download functionality does not time out.
HCGPAS-1563	User Portal	Samples	If you are the backup user for a sample that contains access tags that you do not have permission to view, you can now view the sample.
HCGPAS-1697	User Portal	Samples	You can no longer view sample relatedness information from FN4 analysis if you do not release a sample.
HCGPAS-1740	User Portal	Samples	You can now only release samples to the GPAS Shared Data Pool if they have a status of Unreleased and contain sharing tags.
HCGPAS-1773	User Portal	Samples	You can now view all the available samples in the Samples page. For example, GPAS no longer limits your view to 500 samples.
HCGPAS-1815	User Portal	Tags	When you assign all of the tags that are available to your organization to a sample, you can now see every tag.
HCGPAS-1817	User Portal	Tags	If you are the backup user for a sample, you can now add tags to the sample.
